We are offering a volleyball program to help beginner level participants get ready for our fall season! The program will be run by former head volleyball coach at Notre Dame, Jim McLaughlin. McLaughlin has achieved what few coaches have, winning (2) Division 1 National Championships with University of Washington, along with making it to (6) Final Four appearances. He has coached some of the best players in the country over his tenure at University of Washington, Notre Dame, USC, and Kansas State. Here at the clinic we are looking to provide a dynamic environment, where beginners will learn and expand skills such as serving, passing, and much more! Participants will be paired with others at their skill level. *For further questions please contact Sports Director Tony Eslamirad at teslamirad@bgcni.org or at 317-773-4372.*
